

Tips and Techniques for Great Aesthetic Dentistry

Presented by Dr Christopher Ho

DATE

Saturday, 18 April 2009

TIME

8:30am - 5:00pm

VENUE

ADA NSW Clinical Training Centre
St Leonards

COST

\$990 inc GST

CPD HOURS 6

Proudly sponsored by

This hands-on program will cover smile design, principles of successful adhesive dentistry, photography and proven techniques for treatment with composite resin and ceramic materials.

Teaching participants the art of what makes a smile beautiful, this program will also explore the aesthetic possibilities that are available with today's modern materials. Lectures will compliment the workshops to allow participants to master direct restorations and use materials covered.

Topics include

Smile Design

- Aesthetic Analysis
- Facial and Oral Components

Photography

- Exposure and composition essentials
- Photographic accessories - mirrors, retractors
- Matching teeth - morphology, translucency
- Shade selection

Adhesive Artistry

- New adhesives
- Enamel and dentine bonding
- Tips for predictable success
- Problems with bonding
- Curing lights, and factors affecting light curing

Composite Artistry

- Advance layering (stratifying) concepts
- Tints and opaquers to add extra characteristics
- Understanding tooth anatomy and form
- Blocking discolouration at the gingival margin

Workshops

1. **Class IV restoration:** invisible margins and correct opacity for no show-through translucency
2. **Direct Composite Resin Veneer:** learn to build and layer a composite so it has true depth and colour polychromaticity
3. **Blocking Discolouration**

About the presenter

Dr Christopher Ho graduated with First class Honours from Sydney University and completed postgraduate studies in the Diploma of Clinical Dentistry (Oral Implants). He has been a Clinical Associate of the Faculty of Dentistry at the University of Sydney and given numerous presentations in Australia and internationally on a range of topics related restorative and implant dentistry. He maintains a successful private practice.
